

## Wausau World Market

We tried other banks in the Wausau area, but they weren't focused on growing and supporting our business like AbbyBank was. They helped expand our business from the grocery store into what it is today, World Market. We couldn't have done that without the wonderful support from John and the AbbyBank team. They are always willing to go that extra mile. That was the type of partnership we were looking for in a bank.
